

2025 Corporate Responsibility Highlights

We have added nearly **1,800 MW of wind** and approximately **1,500 MW of solar** since 2008 as part of our balanced energy mix.

We are among the **top 5 largest utility owner-operators of regulated solar and wind energy generation** in the United States.

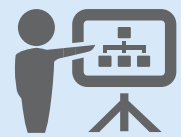

We are **expanding our battery storage** to support a smarter, more flexible grid, placing **274 MW** in service.

Our energy efficiency programs saved enough electricity to power nearly **21,000 homes** for a full year.

Alliant Energy is a Midwest U.S. energy company that serves approximately **1.01 million electric** and **435,000 natural gas** customers across Iowa and Wisconsin.

Our employees received more than **45,000 hours of job-related training** averaging approximately 15 hours per employee.

LIHEAP and other company assistance initiatives helped more than **45,000 customers** with approximately **\$24 million** in support.

Our Foundation, employees and retirees **gave more than \$6.5 million** and logged more than **66,000 volunteer hours** to help make a difference in our communities.

We responded to **99.4%** of gas emergencies within 60 minutes.

As a company, we have protected, enhanced, or restored over **22,000 acres** of habitat.
