

Apple ESG Index

Apple discloses Environmental, Social, and Governance (ESG) data across a number of reports and websites. The following index maps these existing disclosures to the Global Reporting Initiative (GRI), the Sustainable Accounting Standards Board (SASB), and the Task Force on Climate-Related Financial Disclosures (TCFD) voluntary disclosure frameworks, as relevant to our business. This document reflects Apple's work and commitments as of August 2020. While SASB considers "Hardware" to be Apple's primary industry, we have also included select metrics from the Software & IT Services and Internet Media & Services standards to better align with our business.
