C0. Introduction

C0.1

(C0.1) Give a general description and introduction to your organization.

At Oracle, our mission is to help people see data in new ways, discover insights and unlock endless possibilities.

Oracle provides products and services that address all aspects of corporate information technology (IT) environments—applications, platform, and infrastructure. Our applications and infrastructure offerings are delivered to customers worldwide through a variety of flexible and interoperable IT deployment models, including cloud-based, on-premises, or hybrid. We market and sell our offerings globally to businesses of many sizes, government agencies, educational institutions and resellers with a worldwide sales force positioned to offer the combinations that best meet customer needs.

In June 2022, Oracle completed the acquisition of Cerner. Cerner is a leading provider of digital information systems used within hospitals and health systems to enable medical professionals to deliver better healthcare to individual patients and communities.

Sustainability is at the heart of how we operate our business. This includes working toward a 100% renewable energy goal, managing our use of natural resources, ensuring responsible supply chain practices, and building a more circular economy. Worldwide, we're embedding sustainability across our enterprise and delivering innovative cloud technology to accelerate meaningful change for our customers and our planet.
